

RCH Board of Directors 2023 Election

Candidate Qualifications and Personal Statements

STEVE HATFIELD

Qualifications:

RCH WSC Board Member 2016 – Present

McLendon Chisholm City Council Member 2002-2016

McLendon Chisholm Volunteer Fire Department 1995-2010

Owner of Hatfield Acoustics and Drywall 1977-2015

Associates of Applied Science - Richland

Personal Statement:

I have a thorough understanding of the present operations of RCH WSC and the future goals it is working to achieve. My goals have always been to serve all of the customers of RCH WSC not just a few. As a community and neighbors, we must work together to ensure safe and adequate drinking water for all of RCH WSC customers. I have been very involved in serving the citizens of RCH and McLendon Chisholm since 1985 and I hope to continue this service with the help of your vote.

LAURIE A. LEHMBERG

Qualifications:

A dedicated and forward-thinking environmental, safety, health, and sustainability leader with extensive corporate and regulatory experience and progressive responsibility in developing and executing strategy, reducing risk, integrating innovative solutions, and solving problems.

Bachelor of Science degree in Aquatic Biology with second major in Psychology working more than 30 years in an engineering intensive environment.

Personal Statement:

I have been an RCH member for less than 1 year but clearly see opportunity for improvement in leadership, transparency, and accountability. I bring more than 30 years' experience in environmental, safety and health (ESH) management (including water management) with large semiconductor manufacturing companies and would be happy to share my experience in benefit of the RCH members and bring some 21st century experience to the RCH Board...water is too important to allow the status quo to continue.

DAVID NAYLOR

Qualifications:

Board of Directors for ACES Power Marketing 2017-Present

Exec VP of Rayburn Electric Cooperative 2011-2017

President and CEO of Rayburn Electric Cooperative 2017-Present

BS in Electrical Engineering

Personal Statement:

I've lived in this area for 12 years and seen it grow and expand. I'm CEO at an electric cooperative, which is also member owned, and provides wholesale electricity for over 200,000 members. I understand the challenges faced due to growth and necessary infrastructure. Transparency is critical. Unfortunately, RCH has lost focus and forgotten that it is there to serve its members. I believe my experience would benefit RCH and the members.
